- ▶ GERMAN ENGINEERING

# So why an **ADJUSTABLE BED?**

1. **Alleviation of Back Pain:** Adjustable beds provide personalized support by allowing users to elevate their upper body and legs. This feature can significantly alleviate back pain by reducing pressure on the spine and promoting proper alignment.
2. **Enhanced Circulation:** Elevating the legs with an adjustable bed can help improve blood circulation. This is particularly beneficial for those who suffer from conditions such as edema or swelling, as elevating the lower extremities facilitates better blood flow and reduces discomfort.
3. **Reduced Acid Reflux and Heartburn:** Elevating the upper body can help prevent stomach acid from flowing back into the esophagus, reducing the symptoms of acid reflux and heartburn.
4. **Mitigation of Sleep Apnea:** Adjustable beds can be a game-changer for individuals with sleep apnea. By raising the upper body, these beds help keep the airways open, potentially reducing snoring and instances of interrupted breathing during sleep.
5. **Pressure Point Relief:** Customizable positions on an adjustable bed distribute body weight more evenly, reducing pressure on specific areas such as hips and shoulders. This can be particularly advantageous for individuals with arthritis or joint pain.
6. **Improved Sleep Quality:** The ability to find the optimal sleeping position leads to improved sleep quality. As a result, individuals using adjustable beds often report better overall well-being, increased energy levels, and a more positive outlook on daily activities.

**Alleviate stiff  
neck, shoulder  
& back pain**

**Increase blood  
circulation**

**Reduce  
sleep  
apnea and  
reflux**

**Work, watch  
& read from  
your bed  
stress-free**

**Zero gravity  
position to help  
you relax easier  
& wake up fully  
rested**

# the ULTRALUXE ADJUSTABLE BED

## THE GAME CHANGER IN SMART SLEEP TECHNOLOGY

Not only does the UltraLuxe series range of adjustable beds have the usual features of an adjustable bed, like independent head and foot elevations, vibration massage, German engineered okin motors and Dual USB, it boasts the additional features of pillow tilt, lumbar support and Bluetooth connectivity.

By simply downloading our Mattress Point app from your favourite app store, you can find your favourite position, turn on & adjust your massage, or even set an alarm to wake up to a soothing massage, or in a preferred position.

Waking up is better with the UltraLuxe adjustable bed. All you need to do is find your perfect mattress, but with your choice of either soft, medium or firm, falling asleep and waking up with Mattress Point has never been so comfortable.

- Head & foot elevations
- Vibration massage
- Dual USB
- Underbed lighting
- Wireless remote
- Pillow tilt
- Lumbar support
- Adjustable legs
- Adjust from your phone with our phone app
